

MUSIC MATTERS!

With the purchase of Music Matters license plates for your vehicles, you will be helping support music in our schools! This is a simple way to provide funds for our school music programs, and will also show the community that you care.

The cost for the special plate design is \$40, and then \$30 to renew each year (this is in addition to your normal license fees). The money is distributed to local schools, a pool for disadvantaged schools, a program called "Musicians Excelling" (to provide music opportunities for needy students statewide), and to Music Aid Northwest and Washington Music Educators Association. Only \$2 (\$12 first year) goes to the Department of Licensing for administration costs.

You do NOT need to wait for your vehicle license renewal to order the plates! Consider supporting your local schools and letting all of your friends and neighbors know that you believe MUSIC MATTERS!
